ALL-IN-ONE Solar Charging Kits

SRV Series

Every Charging Kit includes an industry leading 30 Amp Charge Controller with a detailed display, Model SCC-30AB.

- The charge controller can manage up to 500 Watts of solar.
- Perfect starter kit. Leaves room for expansion so you can add more panels down the road.
- Advanced technology conditions and protects your batteries, save on replacement costs.

Available in 100 and 150 Watts

MODEL	SOLAR PANEL	CHARGING AMPS
SRV-100-30A	100W	6.07 Amps
SRV-150-30A	150W	8.82 Amps

What's in Your SRV Kit

100W Panel

150W Panel

SCC-30AB

SCW-20-2

SM5-KIT

Solar Panel

Samlex solar panels are constructed with top of the line solar cells and materials that comply with the highest industry standards.

- High efficiency
- Water proof connectors
- High transparency tempered glass
- Anodized aluminium frames
- Resilient to harsh weather conditions

Charge Controller

Samlex 30 Amp Flush Mount Charge Controllers regulate current and protect your batteries from over-charging. Features of this 4-stage Charge Controller include: LED status indicators, LCD display, battery equalization and 8 charge settings for most battery types.

Connecting Wires

A pair of weather resistant 20' connecting wires are provided to connect your panel to a charge controller or to an additional panel. Also sold separately.

Mounting Brackets & Hardware

Provided to secure the solar panel to a flat surface while providing space underneath to facilitate cooling. Also sold separately.

CUSTOMIZE Solar Panel Kits

SSP Series

Solar Panel kits include a panel, connecting wires and mounting brackets – but they don't include a charge controller. This allows you to choose between the 10, 20 or 30 Amp controllers available.

- 10A – can manage up to **160W** of solar
- 20A – can manage up to **330W** of solar
- 30A – can manage up to **500W** of solar

Panel Kits are available in 150 or 100 Watts.

Also use as an Expansion Kit to add another panel to your existing solar system!

Use branch connectors to connect each additional panel in parallel. Branch connectors are sold separately (SBC-2).

MODEL	SOLAR PANEL	CHARGING AMPS
SSP-100-KIT	100W	6.07 Amps
SSP-150-KIT	150W	8.82 Amps

SRV-100-30A

SRV-150-30A

Solar Accessories (sold separately)

Branch Connectors

Use to connect panels in parallel.
(Sold in male/female pairs).

Mounting Brackets & Hardware

SM5-KIT

Adjustable Panel Tilt Mount

Improve charging by up to 40%. Over 30 adjustable settings.

ADJ-28

Connecting Wires (20')

SCW-20-2

Multi-contact Connectors

MC4-2

Battery Temperature Sensor

Recommended to maintain and extend the life of your batteries. Temperature compensated charging ensures that batteries are charged to maximum capacity in cool environments, and are well protected from over-charging in warm environments. Fo use exclusively with SCC-30AB. Sold separately.
