ALL-IN-ONE
Solar Charging Kits

SRV Series

Every Charging Kit includes an industry leading 30 Amp Charge Controller with a detailed display, Model SCC-30AB.

- The charge controller can manage up to 600 Watts of solar.
- Perfect starter kit. Leaves room for expansion so you can add more panels down the road.
- Advanced technology conditions and protects your batteries, save on replacement costs.

Available in 200,150 and 100 Watts

MODEL	SOLAR PANEL	CHARGING AMPS
SRV-200-30A	200W	9.97 Amps
SRV-150-30A	150W	8.82 Amps
SRV-100-30A	100W	6.07 Amps

Solar Panel

Samlex solar panels are constructed with top of the line solar cells and materials that comply with the highest industry standards.

- High efficiency
- Water proof connectors
- High transparency tempered glass
- Anodized aluminium frames
- Resilient to harsh weather conditions

Charge Controller

Samlex 30 Amp Flush Mount Charge Controllers regulate current and protect your batteries from over-charging. Features of this 4-stage Charge Controller include: LED status indicators, LCD display, battery equalization and 8 charge settings for most battery types. 30AB-TS Temperature Sensor included.

Connecting Wires

A pair of weather resistant 20' connecting wires are provided to connect your panel to a charge controller or to an additional panel. Also sold separately.

Mounting Brackets & Hardware

Provided to secure the solar panel to a flat surface while providing space underneath to facilitate cooling. Also sold separately.

Solar Panel Kits
SSP Series

Solar Panel kits include a panel, connecting wires and mounting brackets – but they don't include a charge controller. This allows you to choose between the 10, 20 or 30 Amp controllers available.

- 10A – can manage up to **160W** of solar
- 20A – can manage up to **330W** of solar
- 30A – can manage up to **600W** of solar

Panel Kits are available in 200, 150 or 100 Watts.

Also use as an Expansion Kit to add another panel to your existing solar system!

Use branch connectors to connect each additional panel in parallel. Branch connectors are sold separately (SBC-2-DC).
